

**AGENDA**  
**Meeting of Working Group C**  
**“Statistics with imperfect and incomplete data”**

**COST Action IC0702 - Combining Soft Computing Techniques and Statistical  
Methods to Improve Data Analysis Solutions**

**Mallorca (SPAIN), Tuesday 16/03/2009 15:00 - 18:00 hrs**

▪ 15:00-15:50 Tutorial:

“Fuzzy data in statistics: formalizations and main problems”  
Gil González-Rodríguez, Spain

15:50-18:00 Presentations:

▪ “Dimensionality reduction for multivariate fuzzy data”  
Renato Coppi, Italy

▪ “Classification and clustering using belief functions”  
Thierry Denoeux, France

▪ “Fuzzy statistical quality control - (possible) application in IT”  
Olgierd Hryniewicz, Poland

▪ “Fuzzy association rules”  
Trevor Martin, United Kingdom

▪ “Fuzzy Data, Statistics, and Fuzzy Probability”  
Reinhard Viertl, Austria
